SNOOKER—4½ x 9 5 x 10

MANY NEW FEATURES

- PLEASING MODERN DESIGN
- SUPERB PLAYING QUALITY
- SEMI-CANTILEVER SUPPORT
- LOWER MAINTENANCE COST
- GREATER PLAYER APPEAL
- NOW MODERATELY PRICED

The New 1956 Line

Selected cabinet woods, contoured into smooth, massive, flowing lines are used throughout. A massive base frame rests on two elliptically shaped, pedestal style legs that are so located as to form a semi-cantilever support for maximum strength and rigidity. All table weight is evenly distributed.

New style walnut rails and molded rubber pockets provide perfect playing conditions with greatly reduced maintenance costs. Gleaming aluminum castings and stampings keep their new appearance for the life of the table. The simplicity of modern lines and the superb playing qualities of the THUNDERBIRD line will please your players. Its easy maintenance and moderate price will please you.

SPECIFICATIONS FOR ALL THUNDERBIRD POCKET OR BILLIARD TABLES

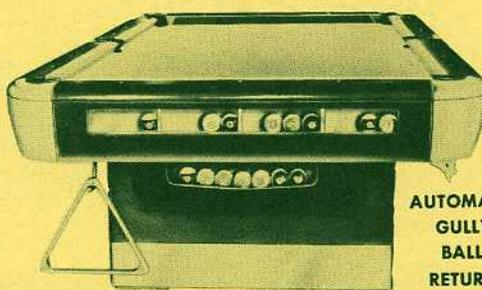

POCKET CASTINGS. Six decorative and functional aluminum castings and four stamped apron corners are polished and anodized to retain their new look for the life of the table. Each casting is rigidly bolted to its respective rail ends. Apron corners are fastened to the pocket casting with concealed pins.

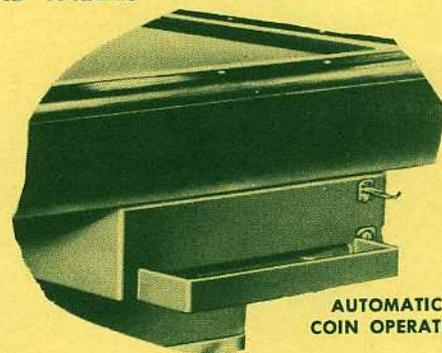

LEGS. Two sturdy and attractively shaped pedestal type legs. Spaced and rigidly joined together by a strong truss member. Legs are bolted to the base frame cantilever style.

BASE FRAME. Constructed of selected and kiln dried cabinet woods. Bolted on top of the two pedestal legs. Base frame extends completely around the table top and across the table.

TRIANGLE AND BRIDGE HOOKS. One triangle hook and four bridge hooks are forged from steel and covered with a heavy coating of plastic rubber to prevent marring of bridge stick and triangle.

EASY FAVORABLE TERMS

GULLY POCKET TABLES. Thunderbird pocket tables can be equipped with gully returns that are a separate accessory to the standard pocket table. Two molded, plastic covered returns attach to each side of the table. They terminate in a gully box located directly under the ball rack at the foot of the table. Not available for 5x10 table. Add extra \$100.00 per table.

SLATE BED. A matched set of three equal sized sections of 1-1/16" thick slate. Perfectly aligned by machined brass dowels and sockets imbedded in the slate slab at the joints. Each slate is reinforced and supported by a wooden frame cemented to its back. This frame is planed and the slate top precision ground to provide a perfect playing surface. Standard sized slate is used on all THUNDERBIRD tables.

CUSHION RAILS. Rail caps are genuine walnut with mother of pearl sights. Each rail is bolted to the side of the slate bed for perfect cushion alignment. Individual rails are removable without disturbing the other rails or aprons. Rails have large rounded contour that blend smoothly into the apron.

COIN OPERATED TABLES. Thunderbird pocket tables can be equipped with coin operated controls as a separate accessory to the standard pocket table. The coin control unit is attached to the foot end of the table, directly under the ball rack in place of the gully box. Must be attached to table with gully. Add \$165.00.

APRONS. Rail bolt heads and the base frame are concealed behind wide, elliptically shaped solid hardwood aprons that extend completely around the table. Each apron is held in place by two concealed machine bolts attached to the corner castings.

POCKETS. Molded rubber pockets fit into the pocket castings and can be replaced without removing rails or castings from the table.

BALL RACK. A four compartment ball rack is built into the apron at the foot end of the table. This rack is aluminum finished and holds 16 balls.

Schaaf Thunderbird tables with "Super Sonic" jet rocket speed rubber cushions covered with waltham 100% wool rail cloth, waltham bed cloth included (not attached). Table ready to play (not assembled—assembly instructions) F.O.B. Minneapolis, packaged for shipment. Playing equipment extra at catalog prices. prices subject to change—plus state tax when required.

Beautifully grained hand rubber solid walnut rail tops with easy sighting round sights. Deep blind rails complete with grille shields. No. 6 irons with black leathers, leather pockets, red leathers, pocket and snooker with built-in ball racks, fast rubber cushions covered with 100% wool cloth. Rail sides, leather strips and wood cushion liners also included. Makes dead tables profitable tables. Tan color blind rails, brown color grille shields.

POCKET TABLE STREAMLINING UNIT

480P—4' x 8' Pocket Streamlined Unit, Complete.....	\$230.00
490P—4 1/2' x 9' Pocket Streamlined Unit, Complete.....	240.00
510P—5' x 10' Pocket Streamlined Unit, Complete.....	250.00

SNOOKER TABLE STREAMLINING UNIT
Streamlined unit as per description except snooker cushions, irons, and leathers.

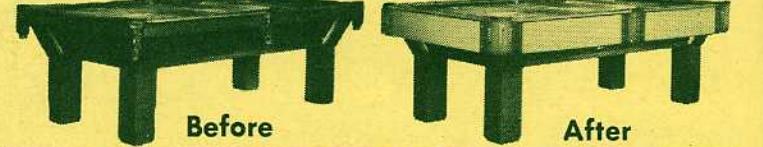

480S—4' x 8' Snooker Streamlined Unit, Complete.....	\$240.00
490S—4 1/2' x 9' Snooker Streamlined Unit, Complete.....	250.00
510S—5' x 10' Snooker Streamlined Unit, Complete.....	260.00

SchAAF's exclusive instant snooker ball return terminal for 6x12 information, please write.

BILLIARD TABLE STREAMLINING UNIT
Streamlined unit as per description except billiard cushions (no pocket opening).

480B—4' x 8' Billiard Streamlined Unit, Complete.....	\$220.00
490B—4 1/2' x 9' Billiard Streamlined Unit, Complete.....	230.00
510B—5' x 10' Billiard Streamlined Unit, Complete.....	240.00

For 6x12 information, please write.
When streamlining tables, if you desire to convert present style table to different style (billiards to pocket, and etc.), changes would be necessary on table slates. Pocket to snooker and snooker to pocket would not require slate changes; pocket to billiard and snooker to billiard would require wood slate fill-in; billiard to pocket and billiard to snooker would require slate cutting and wood slate blocks.
LIFETIME ALUMINUM PANELS AND SHIELDS FOR EYE APPEAL
Can be attached to any 4x8, 4 1/2 x 9, 5x10 table. 8" wide aprons completely enhance appearance of table whether new or used.
GM unit complete with built in ball..... **\$79.50**
Add price of unit (\$79.50) plus \$10.00 for attaching to new table at time of purchasing new table from us.

If customer's cushions are used (necessary to reset) deduct price of new cushions and add **\$18.00** for resetting old cushions.

In 1868 John Hyatt originated a new method of producing Billiard Balls by using Nitro-Cellulose. That method heralded the beginning of the composition Billiard Ball.

While Hyatt today stands as the finest composition Billiard Ball on the market, another new and important development is the use of Phenolic Resins, from which are now cast the new Hyatt Vitalite Billiard Balls. And so today, with advanced techniques the name of Hyatt continues to mean world-wide leadership in the manufacture of Billiard Balls of all types.

Wherever in the wide world Billiards is played, and whether it be Pocket, Snooker or Carom; whether by amateur or professional, beginner or expert, there is a type of Hyatt Billiard Ball that will provide the maximum in all around performance. Only the finest materials are used in the manufacture of Hyatt Billiard Balls, by the most exacting methods and under the control of highly skilled technicians.

D

HYATT®

Hyatt Billiard Balls are preferred by players and operators alike. Among the reasons for their universal acceptance are the list of quality requirements outlined below.

E

SPHERICITY—Hyatt Billiard Balls are ground so perfectly round that they are recognized as one of the finest man-made commercially produced products.

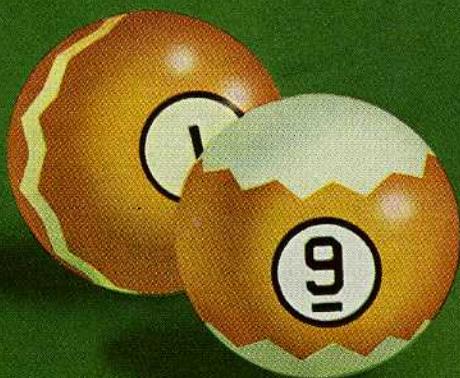

UNIFORMITY—Hyatt Billiard Balls are uniform in every minute detail. From the careful formulation of all ingredients to the precision points of manufacture, rigid control is exercised throughout.

TRANSLUCENCY—The colors in Hyatt Billiard Balls have depth, translucency, uniformity, fastness and brilliance that is unmatched.

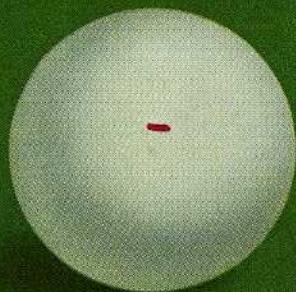

RESILIENCY—Each type of Hyatt Billiard Ball has a specific resiliency that enables the beginner or the expert to control each shot to the limit of his individual capabilities.

BALANCE—Every ball is produced with a uniform density that results in maximum accuracy and trueness of roll on every shot.

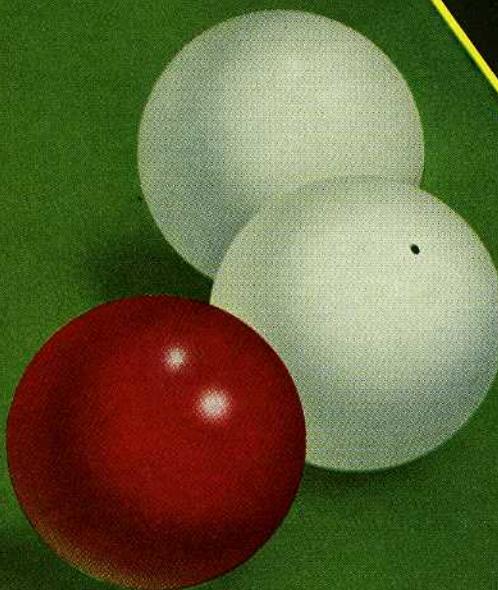

DURABILITY—Hyatt Billiard Balls are built to last and they are made to resist the normal abuse expected in Pocket Billiards.

F

G

H

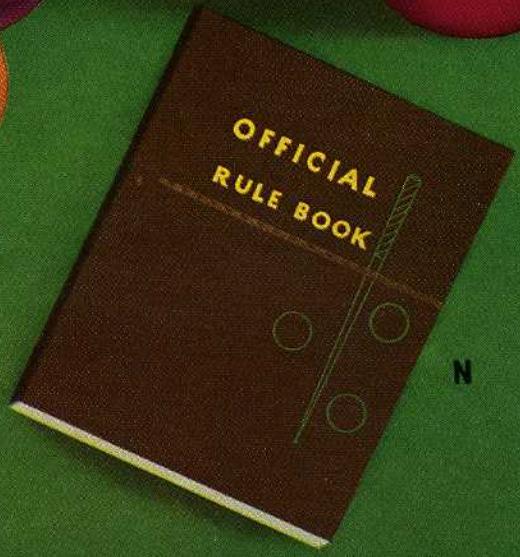

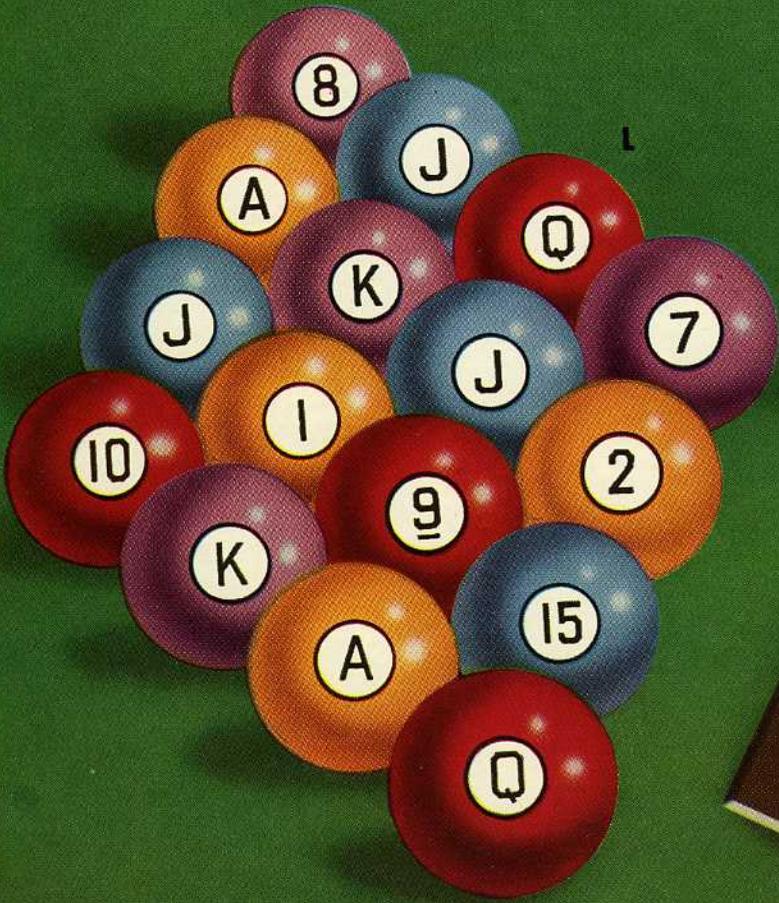

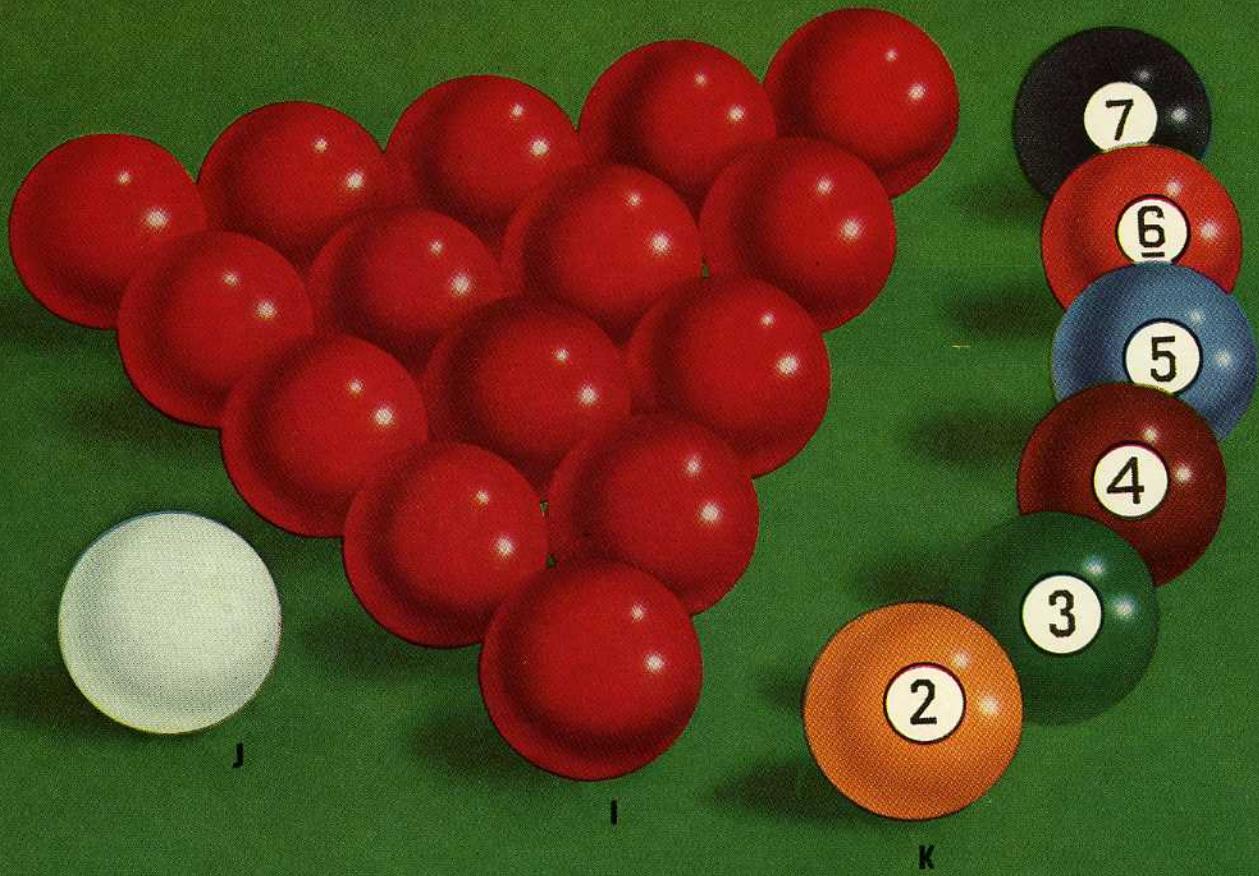

HYATT

COMPOSITION OR "O" TYPE

Hyatt composition or "O" type Billiard Balls have been the standard in quality among billiard operators ever since they were invented by Hyatt. There are no better composition Billiard Balls made.

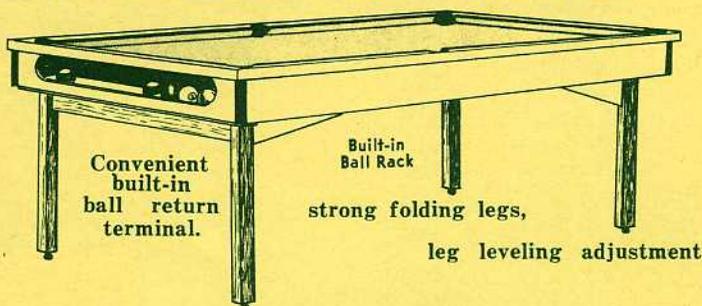

VITALITE

Hyatt Vitalite Billiard Balls have earned their reputation as the finest Billiard Balls ever produced. They scintillate in both appearance and performance. They are made to meet every type of billiard play and their extremely long life attests to their rugged durability. By any comparison, there are no finer Billiard Balls than the Hyatt Vitalite.

No. 3018—Set of 5 \$0.50

Before attaching new bed cloth be sure slate is clean. Level and shim table if necessary. If necessary to repair slates (use slate cement or plaster paris), sand joints perfectly smooth.

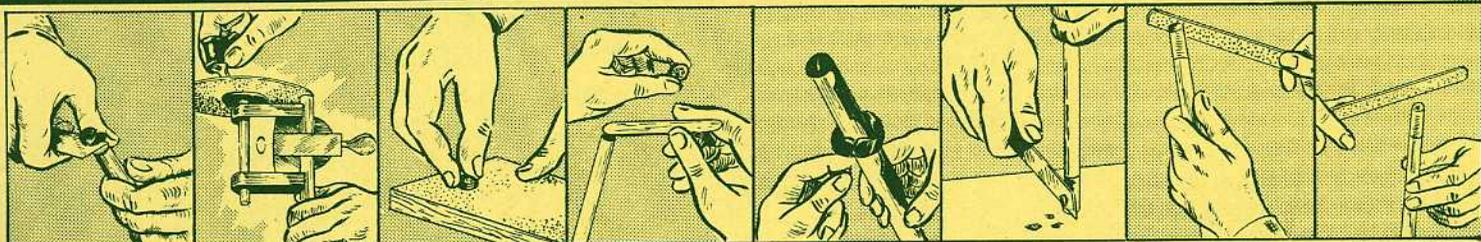

- A—Tack cloth firmly to slate frame. Use 2 tacks, 3 in. apart.
- B—Stretch cloth across table. Tack firmly at point "B."
- C—Stretch cloth to "C." Tack firmly from "A."
- D—Stretch cloth across to "D" from "C." Pull from "B" and tack.
- E—Stretch cloth from "A." Tack firmly.
- F—Stretch cloth from "C." Tack firmly.
- G—Stretch cloth from "B" and "E." Tack firmly at "G."
- H—Stretch cloth from "D" and from "F" tack firmly at "H."
- I—Slit cloth at center of pocket opening enough to stretch cloth and tack to slate frame.
- J—Stretch cloth from "I." Tack securely to slate frame at "J."

Place bed cloth over top of table, nap running from head end (name plate) to foot end. Run palm of hand lightly over the bed cloth surface to determine nap direction. A resistance feeling means against the nap.

- K—Tack cloth firmly at head end "K."
 - L—Tack cloth firmly. Stretch from "K."
 - M—Stretch cloth firmly from "K." Tack at foot end "M."
 - N—Stretch cloth firmly from "L" and "M." Tack at "N."
 - O—Tack head end. Tack 3 in. apart.
 - P—Tack foot end. Tack 3 in. apart.
 - Q—Stretch cloth and tack right side, tacks 3 in. apart.
 - R—Stretch cloth firmly across table, tacks 3 in. apart.
 - S—Stretch cloth to corner pockets. Tack firmly to slate frame.
 - T—Cut off extra cloth with sharp knife.
- When attaching billiard table cloth, eliminate "E," "G," "F," "H," "I," "J," and "S."

HOW TO RE-TIP CUES

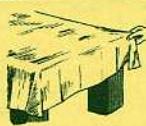

- REMOVE**
Remove old tip with SchAAF's tip knife at the place where old tip joins point.
- SAND OLD GLUE**
Sand off dry glue with SchAAF's cue tip sander.
- SAND**
Select tip same size as cue. Sand tip bottom so that tip will hold better.
- GLUE**
Apply cue cement to bottom of tip and to the top of cue.
- CLAMP**
Fasten lightening cue clamp and allow to sit for at least six hours.
- TRIM**
Trim off tip excess with SchAAF's tip knife.
- SHAPE**
Shape tip top and sides with SchAAF's cue tip trimmer. Round file tip.
- FINISHING**
Treat the leather tip softly with tip powder.

HOW TO CARE FOR YOUR NEW CLOTH

Daily brushing of tables is very important. Always brush with run of nap from head to foot of the table. Vacuum clean twice weekly.

Protect your tables from dust and dirt with dust covers. Helps keep table free from dampness.

Repair and mend cloth tears at once. Keep spots in perfect shape and save your cloth.

TO REPAIR SMALL CLOTH TEARS, USE MENDING TAPE, PLACE STICKY SIDE UP, UNDER CLOTH AND PRESS DOWN. REPAIR LARGE TEARS WITH MENDING TAPE AND SEW WITH NEEDLE AND GREEN THREAD.

ROGERS CUE CEMENT

- R6—1 oz. tube, ea. \$0.15
 - R7—1 oz. bottle, ea.15
 - R8—1/2 pt. can, ea.35
 - R9—1 pt. can, ea. 1.50
- CUE STRAIGHTENER**
-
- Constructed of maple block with trench in which cue is inserted and straightened. S407— \$3.75
